project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	27 Feb 2026
Team ID	
Project Name	Strategic Product Placement Analysis: Unveiling Sales Impact with Tableau Visualization
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Integration & Processing	Import Sales Dataset, Clean & Structure Data, Create Calculated Fields (e.g., Avg Sales Volume)
FR-2	Dynamic Filtering Capabilities	Filter by Product Category, Filter by Consumer Demographics, Filter by Product Position
FR-3	Core Dashboard Visualizations	Render Bar Charts (Avg Sales), Render Packed Bubble Chart (Traffic), Render Treemap (Position/Sales)
FR-4	Data Storytelling & Presentation	Present Story Point 1 (Highest Category), Present Story Point 2 (Foot Traffic Impact), Present Story Point 3 (Combined Insights)

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The dashboard must be highly intuitive, featuring clear chart labels, interactive tooltips, and straightforward checkbox filters for easy navigation by business stakeholders.
NFR-2	Security	Access to the published Tableau dashboard and the underlying sales data should be restricted to authorized users via platform permissions.
NFR-3	Reliability	The visualizations must consistently and accurately reflect the underlying data calculations without errors or distortion when various filters are applied.
NFR-4	Performance	The dashboard and its specific charts must render and update rapidly (e.g., under 3 seconds) when users interact with the dynamic filters.
NFR-5	Availability	The published dashboard needs to be highly available and accessible to users whenever required for business analysis or presentations.
NFR-6	Scalability	The data model and dashboard layout must be designed to smoothly accommodate larger future datasets, such as adding new product categories or more store locations.
